#### No Gas for Refrigerator.

The gas for the refrigerator on the C.-A. S. S. Miowera gave out on the trip up from the Colonies, and it became necessary to leave in the cold storage of the Hawaiian Electric Company 1,500 carcasses of sheep which it was intended should be taken through to Vancouver. Undoubtedly this caused a slight delay in the time of sailing of the Miowera. It has not yet been decided what will be done with the mutton. It is just probable that it will be sold in Honolulu.

#### EASTER AT MRS. HANNA'S.

Paris hats are not profit-makersthey are brought here mainly to show the ladies of Honolulu what the Parisian ladies wear. Virot & Berthe, Place Vendome, Paris, hold the reputation for making hats and touques, that are supremely chic. Julia Delmotte, on Rue Richelieu, is not a whit behind. The models shown by me are from these establishments.

A beauty is made with tulle crown, trimmed with violets and jet crescents. Another is of indescribable shape in dark green satin straw, and trimmed with silk of a lighter shade and bunches of violets and chrysanthemums. These models are strikingly small in size, and would answer well for theater hats in cities where hats are worn at such places.

Of the collection, there is but one flare. It has a crepe de chene crown entirely covered with pansies and large red roses. While these are the productions of the best milliners of Paris, Mrs. Hanna can duplicate them in shape and trimmings at less than half the actual cost of importation. Her store, on Fort street, near King, is patronized by the best bonneted people of Honolulu.
